## Democratic State Ticket.

For Auditor General,  
RICHARDSON L. RIGG, of Philadelphia.  
For Surgeon General,  
JOHN ROWE, of Franklin county.

## News, etc.

Hon. Jas. Bernadine, president judge of the 25th district of Pennsylvania, composed of the counties of Centre, Clearfield and Clinton, was thrown from a buggy at Bellefonte on Friday week and instantly killed. He was a son-in-law of Senator Cameron, and had filled many public positions of responsibility.

From thirty to thirty-five passports continue to be issued daily from the State Department, about three-fourths of them to naturalized citizens.

The Hon. Rufus Choate, who sailed from Boston in the steamship Europa on Wednesday of last week for Liverpool, was obliged to leave the steamer at Halifax on account of the feeble state of his health.

Gen. Pierce expects to return home next month, recent indications in Mrs. Pierce's health, it is said, being less encouraging than heretofore.

The wife of Hon. Edward Everett died in Boston on Saturday night week.

On Friday morning, the first day of July, 1859, there was a white frost at New Boston village and in West Goshen, N. H.

The City Councils of Cincinnati have passed a city passenger railway bill, giving the contract to the highest bidder.

The fashionable watering places are nearly all opened for the season, and daily receiving increased numbers of visitors.

A meeting was held at Ephrata, Pa., last week, for the purpose of organizing the Reading and Columbia railroad, being the last link to complete the connection between New York and Baltimore and Washington, via the East Pennsylvania railroad. The county of Lancaster, the cities of New York, Reading and Columbia, and the villages along the route were largely represented. The meeting by a unanimous vote directed the commissioners to open the books for subscriptions to stock.

Philadelphia, July 3d.—Samuel Jackson's protechnic establishment, corner Tenth and Reed streets, was entirely destroyed this afternoon by an explosion of fire works on hand.—Mr. Beck, who was employed in finishing fire works for the 4th, was burned to death. He was a young man and had only recently married.

Locusts have made their appearance in large numbers, in portions of Hellen and Manchester townships, York county.

Van Amburgh's elephant tried to swim the Appomattox on his way to Petersburg the other day. A bull dog chased him midway of the stream. The elephant quietly submerged the dog with his trunk and tossed him ashore.

The editor of a denominational paper at the West, says: "A man needs grace to edit a religious paper properly at any time, but especially when he has the rheumatism." We think it requires a good deal of grace to edit any sort of a paper this hot weather, rheumatism or no rheumatism.

We learn from the Pittsburg Gazette, that a sprightly lad, seven or eight years of age, named Patrick Finlay, whose parents reside on Butler Hill, Luzerne county, died very suddenly on Sunday week, from the effects of eating green apples the day before. Boys will do well to take warning from his sad case, and save themselves an early grave.

There is a negro in Philadelphia who is distinguished for the size of his feet. They measure 31 inches in length.

A bill is pending in one of our western legislatures to empower women to make contracts. They should by all means be authorized to contract—they have been expanding too much.

The Milwaukee News states that they have recently formed a military company in Chicago, and that after drilling only six times a week for not more than a year, they can now form a straight line—by leaning against the fence.

Miss Smith says she will never marry a widower with a family, and for this reason—she is down on second-hand children.

The attempt of the big Know Nothing, John Minor Botts, of Va., to make capital out of General Cass's late letter on naturalized citizens returning to their native country, is already an abortion. Many papers of the Opposition, including the National Intelligencer, concur in repudiating Botts, and sustaining General Cass. Botts has broken down in the first heat.

Sir Walter Scott admits that the battle of Waterloo ended in the British empire fifteen thousand widows. It is probable that the recent battle of Magenta has created at least twenty thousand widows and six thousand orphans.

**The Great Battle**  
Another great battle is reported in Italy, at Salerno. Two hundred and eighty thousand Austrians and probably two hundred thousand Allies were engaged, the battle lasting sixteen hours. The Allies were victorious. The Austrians lost 35,000 men, killed, wounded and missing, and the French 12,000 killed and wounded. It is reported that the French suffered so severely as to be unable to resume offensive operations.

Breadstuffs were dull and declining.

The Postmaster General is cutting down the expenses of his department in every way possible, and among other things is reducing the mail service on many of the routes, all over the country—not in one State, but in all of them—South as well as North. To make a little party capital, however, the Know Nothing Black Republican presses go down so low into the depths of falsehood, as to assert that the mail service is only reduced to the North, in order to keep the Southern negroes in working order. A more delicate falsehood never was penned—a falsehood known to be such by every one of the unprincipled editors who give it circulation. The lie does not appear in the few respectable papers in the interest of the Opposition. It is too gross for their columns.

Rev. W. K. Luzzan, of Tiffin, Ohio, has received a unanimous call to the Pastorate of the German Reformed Congregation at Hanover, and his acceptance is highly probable.

## Address of the State Committee.

We publish, to the exclusion of other matter, the Address of the State Committee, adopted at their meeting in Harrisburg, on Wednesday week. We can only remark that it discusses the political issues now before the people with ability and clearness, and will amply repay perusal. The principles governing the Democratic party never appear stronger, and the misrepresentations by which they are constantly assailed more feeble, than after a calm survey of the field, accompanied by a vigorous exposition of the fundamental doctrines of the great constitutional party of the country. The time-honored custom of the State Committee in addressing the people of the State directly has been followed in the past by the happiest effects, and we trust that the same consequences may flow from this able written address.

## ADDRESS.

**Fellow Citizens of Pennsylvania:**  
We are happy to address you at a moment when unmitigated manifestations of returning confidence and courage on the part of the Democracy are beginning to exhibit themselves in all quarters of the Commonwealth. You are ready to see what unanimity the State Convention, which assembled at Harrisburg on the 10th of March last, passed resolutions affirming the principles and policy to which we hold ourselves pledged before the country, and how it pronounced, by acclamation, in favor of our excellent and unexpected candidate, with an occasional exception, in the nature of an amicable protest, or suggestion, the proceedings of the Convention have been in the highest degree satisfactory to the entire Democratic party of the State. Since its adjournment there has been the most perfect unanimity of cordial good feeling among Democrats, where they are found, in some instances temporarily interrupted. Unfortunately and unmeaning dissensions have entirely disappeared. In earnest of this, the State Central Committee, although composed of forty-one members, representing every district in the State, and some of whom you will all recognize, with long and faithful connection with the Democratic organization, have been found in a unit in the resolute purpose to sustain that organization at all hazards, against open or secret hostility. The country recognizes, wherever they have spoken, back of us, for our common cause, the responsibility of the Democratic party, and the people are beginning to feel the force of the Democratic principle, and to feel the force of the Democratic principle, and to feel the force of the Democratic principle.

Gen. Pierce expects to return home next month, recent indications in Mrs. Pierce's health, it is said, being less encouraging than heretofore.

—that we represent on this occasion a party as venerable for its age as it is useful in its service, in view of the extraordinary services it has so long, so honestly and so ably performed. Can it not be asserted as an unquestionable fact, that no party ever yet existed in any country on the face of the earth, that has rendered so many and so valuable services to its country, which the Democratic party has rendered to ours? On any issue therefore involving honorable historical antecedents, or a consideration of general merits in the past or present, we shall appear with confidence to the voters of Pennsylvania.

As regards the personal character and qualifications of our nominees for Auditor General and Surveyor General of the Commonwealth, Messrs. R. L. Wright and John Howe, we earnestly desire to call the attention of our fellow citizens to their unblemished private reputations to the ample experience they have acquired in the service of the State in various responsible offices, and to the admitted integrity and efficiency, marking their entire official lives, as offering the strongest guarantee, in all respects, for the positions to which they are severally designated. But there is one question comparatively new to the country, in the form in which it is presented, that has occasioned some diversity of sentiment among us, and which has not been settled authoritatively, as some Democrats contend, by the results of the party. We refer to what is commonly known as the Territorial question. The most ingenious and labored efforts have been made to confuse the public mind on this subject, but when rescued from the incomprehensible jargon of the demagogue, it merely raises an enquiry which should be calmly and judiciously met, as to the nature and extent of the Legislative power possessed by the inhabitants of a Territory of the United States, in the political relations of such Territory to the Government and States of the Union. We do not now propose to enter upon the question at any considerable length, or to discuss minutely, but briefly to express our views regarding it. We presume that every true Democrat will yield his ready adhesion to the principle of Popular Sovereignty, when rightly interpreted and applied. But real Popular Sovereignty is not a sporadic power, to be calmly and judiciously met, as to the nature and extent of the Legislative power possessed by the inhabitants of a Territory of the United States, in the political relations of such Territory to the Government and States of the Union. ## Local Affairs.

**Payment of State Tax.**  
*Adams Again First in the Field!*  
The Treasurer of this county, Hon. J. B. DAWSON, on Thursday last, paid the entire quota of Tax due the State by this county for the year 1859—being about the first to do so! By paying the tax thus promptly a handsome statement, amounting to upwards of \$800, is saved to the county, a fact which will gratify every tax-payer.

Notwithstanding the boasted wealth of other counties, some of them nearer the seat of government too, Adams is still ahead in the prompt liquidation of her portion of the State's dues, over which we have an honest right to "crow" in the name of our sterling little county.

In order to make the full payment so early, the treasury has been pretty well drained, and collectors in the several boroughs and townships are expected to make and return collections without unnecessary delay.

**Supreme Court of Pennsylvania.**  
At its late session in Philadelphia, the Supreme Court made the following decisions in the cases taken from this district and argued at May Term, 1859.

Samuel Fahnestock, appellant, vs. Robert Sheeps, P. A. & S. Small, et al, appellees.—Appeal from Common Pleas of Adams county. Judgment affirmed. Opinion by Reed, Justice.

James A. Thompson and Robert Smith, plaintiffs in error, vs. Bank of Gettysburg, defendants in error. Writ of error to Common Pleas of Adams county. Judgment affirmed. Opinion by Thompson, Justice.

Commonwealth of Pennsylvania, ex rel. John H. McClellan, et al, plaintiffs in error, vs. John H. McClellan, et al, defendants in error. Writ of error to Common Pleas of Adams county. Judgment affirmed. Opinion by Lawrence, C. J. [The Railroad Quo Warranto case.]

George H. Merkle, plaintiff in error, vs. William Trappell, defendant in error. Writ of error to Common Pleas of York county.—Judgment affirmed. Opinion by Thompson, Justice.

Appeal from the decree of the Court of Quarter Sessions of York county, dividing Paradise township and constituting Jackson township, which was argued at the May Term, has not yet been decided.

**Major General.**  
The commissioned officers of the 4th Division, (York and Adams,) on Monday last, voted for a Major General. Major John Scott received in this county 19 votes, and we were told on Monday evening at York that Major General May had there received 19 votes—making a tie, if our information be correct.

**Pic Nic.**  
Pic-nic promises soon to be the order of the day. We understand that Prof. HARRIS is at the head of a project for a grand union Pic Nic, in this vicinity, in which the Singing Associations of Fairfield, Hanover and Gettysburg, with numerous citizens of the three places, are expected to join. A pleasant time will of course be had. No one knows better than the Prof. how to get up such affairs.

**Mill Time Come!**  
Mr. JACOB LITTLE placed upon our table, the other day, a stalk of Timothy measuring 5 feet 6 inches, grown upon his lot, in Strasburg township.

Mr. JOHN HERRST sends in a pair of Timothy stalks, the longest measuring 5 feet 6 inches, grown on his farm, in Cumberland township.

Mr. FRANCIS W. ORRER, the other day, pulled, on his father's farm, in Menallen township, a stalk of Timothy which measures 6 feet 3 inches! Any one doubting this can see the stalk at his father's residence. Old Menallen is hard to beat.

Mr. JEREMY DUMS, of Hamilton township, contributes to our "Museum" several very fine heads of Oats, one of them containing nearly 300 grains—which he very properly styles "sound Democratic oats."

**Admitted to Bail.**  
Wm. Glenn, the man charged with shooting Frank McLaughlin, at Chambersburg, was released from jail on Monday last, by giving security in the sum of two hundred and fifty dollars for his appearance to stand his trial at the August Court. McLaughlin is now pronounced out of all danger from the effects of the shot.

W. B. McCLELLAN, Esq., has purchased the house and lot belonging to the widow of PETER SHREDS, deceased, in W. Middle street, for \$1,335.

The School Directors, on Saturday last, sold the old school house and lot on the corner of High and Washington streets, for \$350, to Mr. HANNAH, who intends erecting a three-story brick dwelling thereon.

A Congregational Meeting will be held in the German Reformed Church, in this place, on Saturday, July 23d, at 1 o'clock, P. M., for the purpose of renting the pews.

**Jurors for August.**  
The Sheriff and Commissioners, on Saturday last, drew the Jurors for August term—10 wit:

GRAND JURY.  
Strahan—Fleming Gilliland, Jacob Bucher, Wm. Stallmiller, Jeremiah Shriver, Franklin—Wm. Toot, Samuel Jno. P. (Cumberland)—Henry Taylor, Jno. P. (Mount Pleasant)—Geo. Hagerman, David Hill, Huntington—Philip Myers, Jno. D. Lecker, Frederick Bowers.

Germany—George Gonder, Henry Spalding, George Stoenfeler.  
Strahan—Cornell.  
Franklin—James Russell, Peter Kettman, Frederick Diller, Joseph Robert.  
Mount Pleasant—Alexander Shorb, Saml. Shorb, Butler—George Ritz, John Hanks, John B. Bream.  
Jacob Appelman.  
Hamiltonban—Joseph Woods, Daniel Baker.  
Liberty—John Muselman, George Greager.  
Huntington—Robert Watson, Isaac Robinson.  
Oxford—Kilias Slagle, Joseph J. Smith.  
Tyronne—Henry J. Myers, Conrad Bream, Abner Guise.  
Reading—Henry A. Picking, Samuel Ordor, Cumberland—Isaac Shriver.  
Berwick—John Elder.

A boot-jack, like a sore finger, has to be healed.

**The Fourth.**  
The 33d Anniversary of the Declaration of American Independence was celebrated with rather more than usual spirit throughout our country on Monday last. From all quarters the echoes of the day, demonstrating the fact that the fire of patriotism still burns brightly on the altar of the Nation.

### The Great Balloon Voyage.

A *Parisian* trip. The balloon, a *Volant* built by the late M. de la Motte, was started from St. Louis on Friday afternoon week, with Messrs. W. L. Mouton, Gager and Hyde, as passengers, landed on the following afternoon near the village of Adams, in the vicinity of Troy, N. Y. The distance traveled was one hundred and fifty miles, in nineteen hours and fifty minutes.

Mr. Wise reports that from St. Louis to Medina, Orleans county, from which the telegraphic dispatch concerning the balloon was received, the voyage was highly successful, with the balloon working to their entire satisfaction, and justifying the hopes with which they had set out, that they would be able to reach the seaboard. At this point, however, they found that they were somewhat out of their course, and could not possibly reach New York, before too late, and therefore determined to proceed to Boston or Portland.

Before taking that direction it was concluded to land at Rochester, there drop Messrs. Gager and Hyde, then proceed on their journey eastward. In carrying out this intention they dropped down gradually, and finally struck a hurricane perfectly right on the nose, which hurried them along at a terrible speed towards Lake Ontario. They were driven down the very surface of the water, where the balloon was lightened in every possible way, carried with fearful speed and violence towards the shore, and through a place of woods into which they finally managed to land. This was in Henderson township, Jefferson county.

The four passengers, Messrs. Wise and La Motte, Mr. Gager, of Boston, and Hyde, of the St. Louis *Republican*, were unhurt, beyond a few scratches. The balloon is considerably damaged, but not beyond repair. One of the marked incidents of the voyage was an oversight which came near proving disastrous to Mr. Wise. He was in the wicker basket, and being overcome with fatigue he fell down and fell asleep; the rest of the party were in the basket below. It being necessary to advise with him on some point as to the course of the balloon, they called to Mr. Wise several times, but received no response. Mr. Gager went to him by climbing up the ropes, and found him breathing apnoeically, from the effects of the sleeping gas, and was slowly suffocating him. He was immediately aroused by Mr. Gager, and soon recovered his senses.

The greatest altitude attained was two miles. Mr. Wise has entire confidence in the success of the undertaking, and expresses a determination to make another voyage, and to make as soon as the balloon can be repaired. He has no doubt but that a voyage can be made by her to Europe in one-fourth of the time that it is now made by the steamers.

### Self-Propelling Engine.

Philadelphia, June 3.—The self-propelling steam fire engine, built at the new works, New York, by Lee & Leland, for the Southwick Hose Co., of this city, reached the company's house at eight last evening, having propelled itself over the turnpike road from Bristol, a distance of 20 miles. Actual running time, two hours; total time 3 hours and 34 minutes. The engine weighed 10,000 lbs. weight of engine 9,000 lbs.; weight of fuel, water and nine 3000 lbs. S.tern steel wheels were ascended without the slightest difficulty at the rate of ten miles per hour.

### Emigration to Hamilton, New Jersey.

The emigration still continues to his new settlement. The present season the crops are excellent. Grapes and peaches yield well. The grain has yielded well. Some forty vineyards have recently been put out.

Considering that this locality is entirely secure from blighting frosts, it presents great inducements for profitable farming to those who must live. The loss of wealth to farmers in the North, from frosts, amounts to incalculable millions, and the loss of their crops is a constant source of anxiety to them from the risk of the most profitable crops.

This New England settlement is undergoing great improvements, and increase of population. We understand that within the past year the population has increased to 1,000. In a business way the improvement is even more marked.

We learn that some parties think of starting the shoe business in this vicinity. Inasmuch as shoe manufacturers go to the markets of Philadelphia and vicinity to buy their leather, and that the shoe business can be carried on to great advantage in this country.

### Stabling Case at York, Pa.

On Saturday evening a party of men connected with the Laurel Fire Company, of York, came in collision with another party belonging to the York Fire Company, and a man named Thomas Morin, of the Laurel Company, was established by a member of the other company, who has been arrested.

The grasshoppers in parts of Virginia are acquiring the habit of chewing tobacco. It is said they have eaten up the growing tobacco crop—the nasty things; by and by they will be smoking cigars and drinking spirits.

### Married.

On the 4th inst., by the Rev. C. J. Deimler, Capt. JOHN MEYER to Mrs. MARY E. PLANK, both of this place.

In Lancaster city, on Sunday, the 3d inst., by Rev. W. H. Ellis, the Rev. J. W. PAT, of this place, to Miss MARY C. WELLS, of Wrightsville, Pa.

On Monday morning, July 4, by the Rev. P. B. Reese, Mr. JOHN L. COOPER, of Santa Clara, Santa Clara county, Cal., to Miss ALICE MARIA PAXTON, daughter of W. W. Paxton, of Chambersburg.

### Died.

On the 8th inst., at Heidersburg, HANNAH FERRE, daughter of Peter Ferre, deceased, just the 31st year of her age. Cause, consumption.

On the 8th inst., in Baltimore, after a long and painful illness, Mr. WILLIAM M. KERR, in the 43d year of his age.

On the 25th ult., in Myers district, Carroll county, Mr. PETER BATTLE, aged 66 years 3 months and 14 days.

Communicated.

On the 4th of July, in East River, Adams county, Mr. GEORGE SCHWARTZ, aged 41 years 6 months and 14 days.

By what frail youth is happiness in this life! How rare is youth and health, and devoted affections, to disarm the potency of death and avert sorrow. We cannot but feel this when we are called upon to record the loss of such a one as the subject of this notice. In the prime of manhood and health—endowed by his many amiable qualities, to all his friends—the delight of all who knew him, and a devoted and affectionate father. His last days were peaceful, yet no murmur escaped his lips. As gradually became weaker in body, but stronger in faith, until he "sweetly fell asleep in Jesus." Thus he has passed from the embrace of an affectionate family, to the companionship and society of angels and of God forever.

The deceased has left a bereft widow and five children to mourn their early loss.

Funeral services will be held at 10 o'clock on the morning of the 13th inst., at the residence of the deceased, 1014 N. E. St., Baltimore.

Interment at the Mt. Vernon cemetery.

### Scrapbook on King's Fall:

**SCROFULA, OR KING'S EVIL,**  
is a constitutional disease, a corruption of the blood, in which the fluid becomes vitiated, thickened, and poor in circulation, and it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attack, nor is there one which it may not destroy. It is the most fatal taint variously accompanied by mercurial disease, scurvy, leprosy, and other diseases, and is the result of disordered or unhealthy food, impure air, sloth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatsoever be its origin, it is the source of the contamination, descending "from parents to their children to the third and fourth generation," and it will be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."  
Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions. This food or matter, by absorption, which genders in the blood, depletes the energies of life, so that scrofulous constitutions not only suffer from scrofulous complications, but they have far less power to withstand the attack of other diseases; consequently, vast numbers perish by diseases which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Scrofulous consumption thus depreciates the human frame, and renders it more susceptible to scrofulous contamination; and this destructive disease of the liver, kidneys, brain, and head, of all the organs, arise from or are aggravated by the disease.  
One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To drive it out from the system we must renovate the blood, and alter the habits, and invigorate it by healthy food and exercise. Such a medicine we supply in

where prevailing and fatal malady. It is combined with the most active remedies that have been discovered for the cure of the most foul disorder from the blood, and the rescue of the system from its destructive consequences. It is not only safe, but employed for the cure of not only scurvy, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, RASH, OF ANTIPRAPIES, PINNERS, PUPTILES, BLOTCHES, RUPIES, THE SCALD HEAD, ECZEMA and SALT RHEUM, SCALD HEAD, RINGWORM, KERATOMAT, STREPTILIC and MERCURIAL DISEASES, DROOPY, DYSPENTIA, DEBILITY, and, indeed, all those ailments which proceed from VITIA OF THE BLOOD, and especially from VITIA OF THE LIVER BLOOD. The popular notion in "impurity of the blood" is founded in truth, for scurvy is a degeneration of the blood. The purgative is used to cleanse the blood, and the capsules is to purify and regenerate this vital fluid without which sound health is impossible in contaminated constitutions.

and invigorate every fibre, search, and cleanse, and purify the blood, and restore the vitality of the healthy qualities. As a consequence of these healthful properties, the invalid is relieved of all pain or physical disability, is astonished to find his health and energy restored by a remedy so simple and so efficient.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. They have been repeatedly and pleasantly to furnish gratis my American Almanac, containing certificates of their cure and directions for their use, to the following persons, who believe in their merits, *Eleonora, Hebeche* arising from disordered stomach, *Annas, Juvignion, Pain in the Arm and Morbid Humors of the Blood*, *John, Juvignion, John, Juvignion*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.
